BLAKE'S 7 ORAC

by TERRY NATION

In this third cassette, intergalactic freedom-fighter Blake and the crew of the Liberator find themselves once again locked in deadly combat with the force of the Federation.

A spaceship crashes approaching the planet Cephlon and when the crew of the Liberator answer the distress call they find their own lives endangered. Blake is caught in a desperate race against time to save the lives of his crew and also find the mysterious ORAC, before Servalan and the ruthless Travis locate it first.

Once in Blake's possession ORAC predicts the future of Blake and his crew by showing them an image of the Liberator blown to atoms in space. Blake is powerless to alter their inevitable destruction and when the Liberator is seized by a hostile force a series of terrifying events set the prophecy in motion.
