FOR SOME IT'S ALL OVER.
BUT FOR ONE MAN IT'S JUST BEGINNING.

FIRE FIGHT

FIRE FIGHT

The time is the 20th century. The place USA, ripped apart by nuclear holocaust. Few people have survived in Northern California. Marauding gangs led by a savage leader who intends to rule and control the remaining supplies and population, are roaming the countryside attacking, robbing and killing innocent people. The only chance for survival is for the victims to unify to fight these human parasites. The terror and the tragedy are everywhere - people trapped in cars, faces rotted from radiation burn, death and starvation.

It's wife against husband, as the survivors who still believe that life is ruled by ethics, battle the outcasts and criminals who are trying to crush them. Only one group can survive in the battle of strength, fear and wit.
